Summary

Eager to apply my expertise in PHP, React, and Mysql as a Web Developer. With a strong academic background and practical experience in developing full stack websites, my objective is to contribute to innovative web development projects. I am actively seeking a role that not only offers opportunities for personal growth but also enables me to spearhead advancements in website development.

Education

KL University, Hyderabad, India

B.Tech in Computer Science and Engineering

GPA: 9.08

August 2021 - May 2025

Projects

Sports products Ecommerce website

This website contains sports products made using HTML, CSS, and JS.

KL University Student Activity Center Website

Led development of KL University Student Activity Center website with interactive features: event calendars, discussion forums, user profiles, emphasizing student empowerment through technology. [Project Link](#)

KL University Student Activity Center Server Website

I set up a server dedicated to the KL University Student Activity Center (SAC), ensuring seamless access to its features and content for users.[Project Link](#)
